

The cracker plant in Pittsburgh Local 449 has done one round of hiring from local 22 and we have been called and there is a second round of hiring scheduled for June 15th. At this time they are only hiring members that have been on site prior and have been through the orientation. They have told us that they may hire other members that have done the background check and have been cleared for employment. Members that have shown interest in the past should call the union hall to let us know that you are still interested.

There have been a few jobs that have been postponed due to budgetary reasons due to the pandemic and there are still two hotels that we are being told are still going to be moving forward but that remains to be seen and we also need our contractors with our partnership to secure these jobs.

Please stay safe and continue to practice CDC guidelines to get all of us through this COVID pandemic.

Sincerely,

A handwritten signature in blue ink, appearing to read 'David Cronkhite', is written over the word 'Sincerely,'.
